CONFERENCE ACTIVITY

Kim, Young Jee. (2026, September 02). *BERTopic analysis of the Korean public deliberation on nuclear energy.* Paper presented at the 122nd American Political Science Association (APSA) Annual Meeting & Exhibition Conference. Boston, MA, USA.

Kim, Young Jee. (2025, September 13). *Empathy depolarizes partisan divide? – Evidence from a Deliberative Poll on electoral reform*. Paper presented at the 121st APSA Annual Meeting & Exhibition Conference. Vancouver, Canada.

Siu, Alice & **Kim, Young Jee**. (2025, July 13). *5 National Deliberative Polls in the Global South*
on guiding principles in Generative AI governance. Paper presented at the 28th Annual International Political Science Association (IPSA) World Congress of Political Science. Seoul, Korea.

Kim, Young Jee. (2025, June 14). *Tight groups are not on a tight rope: Opinion homogenization in political deliberation measured with linguistic style mimicry among participants*. Paper presented at the 75th Annual International Communication Association (ICA) Conference. Denver, CO, USA.

Kim, Young Jee. (2025, May 14). *Depolarization through deliberation: Analyzing shared topics and sentiments in 2023 America in One Room Deliberative Poll*. Paper presented at the 78th Annual World Association for Public Opinion Research (WAPOR) Conference. St. Louis, MO, USA.

Kim, Young Jee. (2024, June 24). *Revisiting the domination by the more advantaged in deliberation: Using transcripts for individual differences in sophisticated language use and group domination.* Paper presented at the 74th Annual ICA Conference. Gold Coast, Australia

Kim, Young Jee. (2024, July 29). *Unboxing black box of deliberation: Identifying participants' concerns*[1] Paper presented at the 77th Annual WAPOR Conference. Seoul, Korea

RESEARCH EXPERIENCES

2022 - Present Research Assistant at Deliberative Democracy Lab, Stanford
- Conducted computational textual analysis of deliberative mini-public transcripts.
- Implemented multilevel modeling to examine opinion change among participants in group deliberation.
- Moderated in-person deliberative sessions.

2017 - 2018 Research Assistant at Ewha Womans University
- Conducted textual network analysis to examine social conflict that intersected environmental impact and foreign policy.
- Designed and programmed online experimental survey instruments for climate change perception.

TEACHING EXPERIENCES

2026 Summer Instructor for Stanford University
Political Language Lab: Analyzing the Texts of Democracy
- Designed the syllabus to cover discussions about democracy theories
- Prepared learning materials for the basics of R and textual analysis

[1] Dataset: The public deliberation on Shin Kori 5·6

- Accommodated students with diverse learning stages (Master's program to high school students)

2026 Spring Teaching Assistant for Dr. Xiaochang Li at Stanford University
Race and Media

- Led discussions for 28 students to use class concepts to think about modern examples and deepen their understanding.
- Organized class administration to improve collaboration among the teaching team.
- Guided students' research questions and improved their writing skills.

2022 - 2026 Teaching Assistant for Dr. James Fishkin at Stanford University
Deliberative Democracy and its Critics (2022, 2024, 2026)
The Dialogue of Democracy (2022, 2025)

- Mentored 30+ students through the completion of independent research papers, managing timelines, and providing staged feedback on research design and writing.
- Collaborated with guest lecturers, departmental staff, course instructor, and fellow TAs to design and facilitate student discussions on democracy.

SPECIAL SKILLS

Computational Social Science: Few-shot LLM classification, RAG pipelines, Topic Modeling

Statistical Modeling: Multi-level modeling (MLM), Mediation analysis, Experimental survey design, Longitudinal analysis

Programming & Tools:

Python: Transformers (HuggingFace), Pandas, Numpy, Scikit-Learn

R: lme4, mediation, tidyverse, BRMS

Specialized: LIWC-22, High-performance Computing (HPC), Bilingual NLP (Korean/English processing with Llama-3, Bllossom, and localized embeddings)

Professional Leadership: Completed NIH-sponsored training (Stanford BIO 315) on conflict management and emotional intelligence; Equipped to lead inclusive research teams and facilitate dialogue in interdisciplinary, high-stakes academic environments.

AWARDS AND HONORS

2020 - 2025 Scholarship for Doctoral Study Abroad Program, Korea Foundation for Advanced Studies

UNIVERSITY SERVICES

2025 Spring Volunteer Instructor for Stanford Splash
Deliberation Hours

- Designed and delivered age-appropriate lectures translating concepts of deliberative democracy for K–12 students.
