EDUCATION

2020 – Present Ph.D. in Communication at Stanford University
Dissertation: Deliberative Distortions in Structured Deliberations (ABD)
Advisor: Dr. James Fishkin

2016 - 2018 M.A. in Communication and Media at Ewha Womans University
Thesis: Discursive struggles through the cultural economic model on media reports about THAAD deployment in Korea
Advisor: Dr. Yung-wook Kim

2011 - 2016 B.A. in Advertising and Public Relations at Ewha Womans University (Summa Cum Laude)
Scranton Honors Program – Digital Humanities Track (Double Major)
Philosophy (Minor)

PEER-REVIEWED JOURNAL ARTICLES

Kim, Young Jee (2026). The law of group polarization revisited: Using transcripts from a Deliberative Poll to examine the influence of imbalance in the argument pool. *International Political Science Review.* https://doi.org/10.1177/01925121251410597

Kim, Young Jee (2025). Do the more advantaged dominate deliberation? Using transcripts for identifying relationship between social advantage and deliberation. *Journal of Deliberative Democracy, 21*(1), pp. 1-17. doi: https://doi.org/10.16997/jdd.1549

Lee, Jiyoung, Kim, Yungwook, & **Kim, Young Jee**. (2018). How powerful are fear appeals and testimonials in reducing fundamental causes of smoking cessation intention in South Korea? Applying the extended parallel process model to the fundamental cause theory. *Asian Communication Research, 15*(1), 13-48.

Kim, Yungwook, **Kim, Young Jee**, & Kim, Soo-hyun. (2018). Risk seeking and processing on climate change: Moderating effects of perceived information gathering capacity, channel beliefs, and behavioral beliefs. *Korean Journal of Journalism & Communication Studies*, *62*(5), pp. 72-106. DOI: 10.20879/kjjcs.2018.62.5.003. (in Korean)

Kim, Yungwook, Ham, Seungkyung, & **Kim, Young Jee**. (2017). Media discourse analyses on the Sewol ferry incident: The methodological integration of the critical discourse analysis and the semantic network analysis using newspaper big data. *Korean Journal of Communication & Information, 83*, pp. 7–38. (in Korean)

Kim, Yungwook, Ham, Seungkyung, **Kim, Young Jee**, & Choi, Jimyoung. (2017). A Critical Discourse Analysis on a Social Issue - Focusing on the THAAD Deployment Big Data Analysis -. *Communication Theories*, 13(4), pp. 40-91. (in Korean)

CONFERENCE ACTIVITY

Kim, Young Jee. (2026, September 02). *BERTopic analysis of the Korean public deliberation on nuclear energy.* Paper presented at the 122nd American Political Science Association (APSA) Annual Meeting & Exhibition Conference. Boston, MA, USA.

Kim, Young Jee. (2025, September 13). *Empathy depolarizes partisan divide? – Evidence from a Deliberative Poll on electoral reform*. Paper presented at the 121st APSA Annual Meeting & Exhibition Conference. Vancouver, Canada.

Siu, Alice & **Kim, Young Jee**. (2025, July 13). *5 National Deliberative Polls in the Global South on guiding principles in Generative AI governance*. Paper presented at the 28th Annual International Political Science Association (IPSA) World Congress of Political Science. Seoul, Korea.

Kim, Young Jee. (2025, June 14). *Tight groups are not on a tight rope: Opinion homogenization in political deliberation measured with linguistic style mimicry among participants*. Paper presented at the 75th Annual International Communication Association (ICA) Conference. Denver, CO, USA.

Kim, Young Jee. (2025, May 14). *Depolarization through deliberation: Analyzing shared topics and sentiments in 2023 America in One Room Deliberative Poll*. Paper presented at the 78th Annual World Association for Public Opinion Research (WAPOR) Conference. St. Louis, MO, USA.

Kim, Young Jee. (2024, June 24). *Revisiting the domination by the more advantaged in deliberation: Using transcripts for individual differences in sophisticated language use and group domination.* Paper presented at the 74th Annual ICA Conference. Gold Coast, Australia

Kim, Young Jee. (2024, July 29). *Unboxing black box of deliberation: Identifying participants' concerns*[1] Paper presented at the 77th Annual WAPOR Conference. Seoul, Korea

RESEARCH EXPERIENCES

Research Assistant at Deliberative Democracy Lab, Stanford University 2022 - Present

- Conducted computational textual analysis of deliberative mini-public transcripts to examine legitimacy of the public deliberation's procedure and results.
- Implemented multilevel modeling to examine opinion change among participants in group deliberation to understand group dynamics of structured deliberative process.
- Moderated in-person deliberative sessions for 12 adults in Pennsylvania (3 days) and for elementary school students in California (2 events).

Research Assistant at Ewha Womans University 2017 - 2018

- Conducted textual network analysis to examine social conflicts, the intersection of foreign policy and environmental policy, and the national tragedy from a ferry accident.
- Designed and programmed online experimental survey instruments for information seeking behavior and intentions about climate change and smoking cessation.

[1] Dataset: The public deliberation on Shin Kori 5·6

TEACHING EXPERIENCES

Instructor for Stanford University
Political Language Lab: Analyzing the Texts of Democracy (2026 Summer)
- Designed the syllabus to discuss democracy theories from figures such as Dahl, Schumpeter, Downs, Young, and Pateman
- Prepared learning materials for the basics of statistics, R, and textual analysis, such as live coding demonstration
- Accommodated nine students with diverse learning stages to maximize their learning (from Master's program to high school students), like providing extra readings about multilevel modeling for students who were familiar with t-test.

Teaching Assistant for Dr. Xiaochang Li at Stanford University *Race and Media* (2026 Spring)
- Led discussions for 28 students to use class concepts to think about modern examples and deepen their understanding of abstract concepts from class.
- Organized class administration to improve collaboration among the teaching team.
- Guided students' research questions and improved their writing skills by providing feedback during and outside office hours.

Teaching Assistant for Dr. James Fishkin at Stanford University
Deliberative Democracy and its Critics (2022, 2024, 2026)
The Dialogue of Democracy (2022, 2025)
- Mentored 30+ students per class through the completion of independent research papers, managing timelines, and providing staged feedback on research design and writing.
- Collaborated with guest lecturers, departmental staff, course instructor, and fellow TAs to design and facilitate student discussions on democracy.

Volunteer Instructor for Stanford University Splash Program *Deliberation Hours* (2025 Spring)
- Designed and delivered age-appropriate lectures translating concepts of deliberative democracy for K–12 students.

SPECIAL SKILLS

Computational Social Science: Few-shot LLM classification, RAG pipelines, Topic Modeling
Statistical Modeling: Multi-level modeling (MLM), Mediation analysis, Longitudinal analysis Experimental survey design
Python: Transformers (HuggingFace), Pandas, Numpy, Scikit-Learn
R: lme4, mediation, tidyverse, BRMS
Specialized: LIWC-22, High-performance Computing (HPC), Bilingual NLP (Korean/English processing with Llama-3, Bllossom, and localized embeddings)
Professional Leadership: Completed NIH-sponsored training (Stanford BIO 315) on conflict management and emotional intelligence; Equipped to lead inclusive research teams and facilitate dialogue in interdisciplinary, high-stakes academic environments.

AWARDS AND HONORS

Scholarship for Doctoral Study Abroad Program, *Korea Foundation for Advanced Studies*
2020 - 2025
